The girl, afraid to follow alone, ran back into the office and closed the door. The delay was enough to cut her off from all hope of escape by the stair-way. So she went to the window, climbed out on a ledge that ran along under the window, and clinging to the wall got to the end of the building.
The firemen below yelled to her to keep cool and not to sump. Then three of them, Patrol Fireman Rush and two members of Engine No. 20, O'Neil and Cusick, rushed through the burning building. O'Neil reached the window near which Mollie stood and caught hold of her. Then Rush and Cusick go out of another window, and walked along the ledge to where the girl was. Mansfield's Changes in the Garrick Theatre-Eme Shannon Not Going to Marone.

Richard Mansfield has done wonders with the Garrick-late Harrigan's-Theatre, which he opened last night, with much success. The interior has been completely redecorated, and the new tints are rich, striking and eminently satisfactory to the eye. Mr. Mansfield's good taste is undeniable. He is neat but not gaudy, and a good many manaand glitter might take lessons from him with profit to themselves. There is a little Pompelian cafe and drawingroom in the basement that will surely prove attractive, while the new drop curtain put the eye on good terms with itself. So much depends upon a dropeurtain-so much more than the average theatre-goer is inclined at first sight to believe. In the cafe there are divans and quaint drawings, a fountain and palms and handsome vases. Bon-bons and ice-cream can be obtained by those who need refreshment. Mansheld opened Abbey. In the latter year he was made his season with a revival of Bernard Archdescon. His new honor came to him Shaw's quaint comedy, "Arms and the Monday last.
